Sustainable Arts & Crafts       June 15 – June 19       Corinna Ferro

Learn how to create beautiful objects with upcycled, found, and sustainable materials! Students will explore artistic principles and understand where their crafting materials come from. Throughout the week, we will transform traditional items into works of art and beauty, learn how upcycling is different than recycling in our camp’s makerspace, visit the Peninsula Fine Arts Center and various artists’ studios to experience different art processes, and end the week with a gallery show. Materials fee: $40

Theatre Arts        June 22- June 26       Corinna Ferro

Let’s put on a play! In this camp, students will be able to express their creativity and imagination through acting. We will learn how to plan and execute a one-act play – from table-reading and costume and set design to blocking and rehearsing—that will be performed on the final day of camp. Field experiences will include attending a performance at Williamsburg Regional Library and visiting the Kimball Theatre.

Let’s Get Sporty!       June 29- July 10       Holli Sawyer

We are going to get sporty and work up a sweat! This summer camp will be all about the campers gaining basic skills necessary with an introduction to lacrosse, baseball, soccer, basketball, and Quidditch – the game popularized by Harry Potter books. The camp will also focus on sportsmanship, teamwork, cooperation, how to practice effectively, how to be coached, and health and nutrition.

Logo Engineering Camp       July 13- July 17       Brandy Bergenstock

Developed to help enhance students’ natural problem solving and critical thinking skills, Lego Engineering Camp will expose campers to the concepts and vocabulary of basic engineering and physics, providing an opportunity to have a great time with the terrific and versatile building system of every one’s favorite building tools – LEGOS! We will focus on simple machines, daily building challenges and cooperative experiments. Campers will be introduced to engineering terminology that they are encouraged to use throughout the day when identifying pieces, posing questions or assisting each other with projects. Hands on learning at its best!

Don’t Bug Me!       July 20 – July 24       Brandy Bergenstock

This week-long outdoor entomology camp includes insect collection, identification, creating a bug habitat, forest/insect ecology and visits from local professionals – rangers, professors and a forensic etymologist. When you learn about insect biology and behavior, you naturally develop an interest in these amazing creatures that share our planet. This buggy camp exposes campers to the value and benefits bugs provide to humans and the world through science and art.

Virginia is for History Lovers       July 27 – August 7       Holli Sawyer

Get ready to jump into the DeLorean with me and travel back in time to explore the Historic Triangle! This camp will take us to Jamestown, Colonial Williamsburg, and Yorktown where we will take a hands-on approach to history. We will jump into the trenches to oversee archeological excavations, visit artifacts in local museums, and we will walk and talk our way through the past with exciting tours, and exclusive access to some of the area’s most significant historical landmarks.
Williamsburg Montessori School
Elementary (ages 6-12)
2020 Summer Programs
9:00am to 2:00pm
Before and After Care Available 8:00-9:00am and 2:00-5:30pm
